

# OmniChlor™ Plus

Effervescent Chlorine Tablets

**OmniChlor™ Plus** is the complete farm disinfectant. An effervescent, water-soluble tablet it is easy to use and provides a controlled dose of powerful disinfecting performance. Its ability to rapidly kill micro-organisms makes it ideal for general disinfection around the farm.

OmniChlor™ Plus is approved by Defra in the UK, against Foot and Mouth, Swine Vesicular Disease, Avian Influenza, Tuberculosis and General Orders. It's high dilution rates and accurate dosing, ensure optimum performance and offers potential for significant savings.

## Key Features

- Effective against Bacteria, Viruses, Mycobacteria, Spores and Fungi
- Suitable for routine and terminal disinfection
- Can be used at lower concentrations to disinfect animal drinking water
- Supports the reduction of Antibiotic use
- Enhances existing biosecurity programmes
- Deters biofilm growth and the spread of algal blooms
- Compatible with non-ionic and anionic surfactants
- Effective in hard and soft water
- Practical to store and transport

# OmniChlor™ Plus

Effervescent Chlorine Tablets
