

SAFETY DATA SHEET OMNICHLOR H2O

Compiled in Accordance with EU and GB REACH and CLP Regulations.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name OMNICHLOR H2O
Product number 800-409-0030

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses Disinfectant.
Uses advised against Not for direct oral consumption in concentrated form.

1.3. Details of the supplier of the safety data sheet

Supplier COVENTRY CHEMICALS LTD
WOODHAMS RD
SISKIN DRIVE
COVENTRY
CV3 4FX
Tel: +44 (0) 2476639739
Fax: +44 (0) 2476639717
Email: sales@coventrychemicals.com

Contact person For content of safety data sheet., sds@coventrychemicals.com

1.4. Emergency telephone number

Emergency telephone +44 (0) 1865407333 (Strictly for emergencies only: incidents involving damage to human health and/or the environment)

National emergency telephone number In case of a medical emergency following exposure to a chemical call NHS Direct in England or Wales 0845 46 47 or NHS 24 in Scotland 08454 24 24 24

Irish NPIC number

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (EC 1272/2008)

Physical hazards Not Classified
Health hazards Eye Irrit. 2 - H319 STOT SE 3 - H335
Environmental hazards Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410

2.2. Label elements

Hazard pictograms

Signal word Warning

OMNICHLOR H2O

Hazard statements	H319 Causes serious eye irritation. H335 May cause respiratory irritation. H410 Very toxic to aquatic life with long lasting effects.
Precautionary statements	P102 Keep out of reach of children. P273 Avoid release to the environment. P280 Wear eye protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/ attention. P402 Store in a dry place. P405 Store locked up. P501 Dispose of contents/ container in accordance with local regulations.
Supplemental label information	EUH031 Contact with acids liberates toxic gas.
Contains	TROCLOSENE SODIUM

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

TROCLOSENE SODIUM 30-60%		
CAS number: 2893-78-9	EC number: 220-767-7	
M factor (Acute) = 1	M factor (Chronic) = 1	
Classification Ox. Sol. 2 - H272 Acute Tox. 4 - H302 Eye Irrit. 2 - H319 STOT SE 3 - H335 Aquatic Acute 1 - H400 Aquatic Chronic 1 - H410	Classification (67/548/EEC or 1999/45/EC) E;R2 O;R8 Xn;R22 Xi;R36/37 R31 N;R50/53	
ADIPIC ACID 10-30%		
CAS number: 124-04-9	EC number: 204-673-3	
Classification Eye Irrit. 2 - H319	Classification (67/548/EEC or 1999/45/EC) Xi;R36	
SODIUM CARBONATE 1-5%		
CAS number: 497-19-8	EC number: 207-838-8	REACH registration number: 01-2119485498-19-XXXX
Classification Eye Irrit. 2 - H319	Classification (67/548/EEC or 1999/45/EC) Xi;R36	

The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.

SECTION 4: First aid measures

OMNICHLOR H2O

4.1. Description of first aid measures

Inhalation	Remove person to fresh air and keep comfortable for breathing. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. If breathing stops, provide artificial respiration. Get medical attention immediately.
Ingestion	Never give anything by mouth to an unconscious person. IF SWALLOWED: Do not induce vomiting. Give plenty of water to drink. Give milk instead of water if readily available. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if symptoms are severe or persist.
Skin contact	Brush off loose particles from skin. Remove contaminated clothing immediately and wash skin with soap and water. Wash contaminated clothing before reuse. Get medical attention if irritation persists after washing.
Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Do not rub eye. Get medical attention if irritation persists after washing.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation	The product is not believed to present a hazard due to its physical nature. May cause damage to mucous membranes in nose, throat, lungs and bronchial system. Prolonged or repeated exposure may cause the following adverse effects: Coughing, chest tightness, feeling of chest pressure. Dizziness.
Ingestion	Due to the physical nature of this product, exposure by this route is unlikely. The product irritates mucous membranes and may cause abdominal discomfort if swallowed. May cause burns in mucous membranes, throat, oesophagus and stomach. Discoloration of the skin. Drowsiness, dizziness, disorientation, vertigo.
Skin contact	Prolonged contact with moist or wet product may cause burns. The product is considered to be a low hazard under normal conditions of use. Skin irritation should not occur when used as recommended.
Eye contact	May cause severe eye irritation. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

4.3. Indication of any immediate medical attention and special treatment needed

Notes for the doctor	Due to the potential for the production of Chlorine Gas, check for respiratory disorders.
-----------------------------	---

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Note:- The product will dissolve in the presence of directly applied water. If there is acidic material in the proximity, the run off could produce Chlorine Gas

5.2. Special hazards arising from the substance or mixture

Specific hazards	Thermal decomposition or combustion products may include the following substances: Hydrogen chloride (HCl). Nitrous gases (NO _x). Carbon dioxide (CO ₂). Carbon monoxide (CO). Chlorine
-------------------------	---

5.3. Advice for firefighters

Special protective equipment for firefighters	Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Decontaminate fire fighting equipment and apparel after the incident using a 10% solution of sodium carbonate.
--	--

SECTION 6: Accidental release measures

OMNICHLOR H2O

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet.

6.2. Environmental precautions

Environmental precautions Do not release into the environment. Avoid the spillage or runoff entering drains, sewers or watercourses. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air). Note:- Comment applies to neat product, not "in-use" solutions.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up Clear up spills immediately and dispose of waste safely. Provide adequate ventilation. Avoid generation and spreading of dust. Avoid water contacting spilled material or leaking containers. Remove spillage with vacuum cleaner or collect with a shovel and broom, or similar. Collect and place in suitable waste disposal containers and seal securely. Avoid using water to clean up spillages or residues, unless the quantity remaining is very small. When handling waste, the safety precautions applying to handling of the product should be considered.

6.4. Reference to other sections

Reference to other sections For waste disposal, see Section 13. For personal protection, see Section 8. See Section 12 for additional information on ecological hazards.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Usage precautions Do not get in eyes, on skin, or on clothing. Avoid breathing dust. Respiratory protection may be required if excessive airborne contamination occurs. Remove contaminated clothing and wash the skin thoroughly with soap and water after work. Wash contaminated clothing before reuse. Wear tight-fitting, chemical splash goggles or face shield.

Advice on general occupational hygiene Provide eyewash station. Do not eat, drink or smoke when using this product. Good personal hygiene procedures should be implemented. Wash promptly with soap and water if skin becomes contaminated.

7.2. Conditions for safe storage, including any incompatibilities

Storage precautions Store below 25°C. Keep container dry. Keep container tightly closed, in a cool, well ventilated place. Store away from incompatible materials (see Section 10). Contact with acids liberates toxic gas. Keep out of the reach of children. Store locked up. Vapour space in a closed container may contain a slight amount of chlorine gas and compounds from decomposition of the product.

7.3. Specific end use(s)

Specific end use(s) Mix only with water. Do not mix with other household chemical products. Do not mix with acid.

SECTION 8: Exposure controls/Personal protection

8.1. Control parameters

Occupational exposure limits

Additional Occupational Exposure Limit Values for possible hazards during processing:

7782-50-5 chlorine WEL (Great Britain) Short-term value: 1.5 mg/m³, 0.5 ppm

IOELV (EU) Short-term value: 1.5 mg/m³, 0.5 ppm

Long term exposure (8-hour TWA): WEL 10mg/m³ inhaled dust.

Long term exposure (8-hour TWA0) WEL 4mg/m³ respirable dust.

TROCLOSENE SODIUM (CAS: 2893-78-9)

OMNICHLOR H2O

DNEL	Workers - Inhalation; Long term systemic effects: 8.11 mg/m ³ Workers - Dermal; Long term systemic effects: 2.3 mg/kg General population - Inhalation; Long term systemic effects: 1.99 mg/m ³ General population - Dermal; Long term systemic effects: 1.15 mg/kg/day General population - Dermal; Long term systemic effects: 1.15 mg/kg/day
PNEC	Fresh water; 0 mg/l Fresh water, Intermittent release; 0.002 mg/l marine water; 1.52 mg/l STP; 0.59 mg/l Sediment (Freshwater); 0.59 mg/l Soil; 0.756 mg/l

SODIUM CARBONATE (CAS: 497-19-8)

DNEL	Workers - Inhalation; Long term local effects: 10 mg/m ³ General population - Inhalation; Long term local effects: 10 mg/m ³
-------------	---

8.2. Exposure controls

Protective equipment

Appropriate engineering controls

As this product contains ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapour or mist. Use approved respirator if air contamination is above an acceptable level. Note: Comment refers to manufacturing and packaging, not normal use.

Personal protection

This product is not classified for skin irritation or corrosion, but the use of gloves for extended use is recommended.

Eye/face protection

Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Refer to EN166. Provide eyewash station.

Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with European Standard EN374. In normal use gloves are not required. During manufacture and filling operations, the use of gloves with a breakthrough time of >60minutes is recommended. It is recommended that gloves are made of the following material: Nitrile rubber. Butyl rubber. Rubber (natural, latex). Neoprene. Polyvinyl chloride (PVC).

Other skin and body protection

Wear appropriate clothing to prevent skin contamination. Wash contaminated clothing before reuse.

Hygiene measures

Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site.

Respiratory protection

Respiratory protection is important in manufacture and packing operations, it is unlikely to be needed in normal use unless a risk assessment suggests that WEL exposure levels quoted in section 8 of this SDS will be exceeded.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Tablet.
Colour	White/off-white.

OMNICHLOR H2O

Odour	Chlorine.
Odour threshold	No information available.
pH	pH (concentrated solution): 5-6
Melting point	Not applicable.
Initial boiling point and range	Not applicable.
Flash point	Not applicable. Solid.
Evaporation rate	Not applicable.
Evaporation factor	Not applicable.
Flammability (solid, gas)	The product is not flammable.
Vapour pressure	The product is non-volatile. Not applicable.
Vapour density	Not applicable. The product is non-volatile.
Relative density	~1.5
Bulk density	Not applicable.
Solubility(ies)	Completely soluble in water.
Auto-ignition temperature	Not available.
Decomposition Temperature	225-250°C
Viscosity	Not applicable.
Explosive properties	Not considered to be explosive.
Explosive under the influence of a flame	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
Comments	Information given is applicable to the product as supplied.

9.2. Other information

Other information Not relevant.

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity The reactivity data for this product will be typical of those for the following class of materials: Acids. Alkalis. Oxidising materials.

10.2. Chemical stability

Stability Stable at normal ambient temperatures and when used as recommended.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions Contact with acids liberates toxic chlorine gas.

10.4. Conditions to avoid

Conditions to avoid Keep at temperature not exceeding 25°C. Avoid handling which leads to dust formation. Avoid contact with: Water, moisture.

10.5. Incompatible materials

OMNICHLOR H2O

Materials to avoid Avoid contact with the following materials: Strong acids. Strong alkalis. Reducing agents. Flammable/combustible materials. Ammonia. Organic compounds. Oxidising agents.

10.6. Hazardous decomposition products

Hazardous decomposition products Chlorine. Oxides of carbon. Chlorides. Hydrogen chloride (HCl). Isocyanates Nitrous gases (NOx).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicological effects Information given is applicable to the major ingredient.

Other health effects Does not contain any substances known to be carcinogenic.

Skin sensitisation

Skin sensitisation Not sensitising.

Inhalation

Dust irritates the respiratory system, and may cause coughing and difficulties in breathing. Note:- Contact with acid will produce Chlorine Gas, this may result in breathing difficulties.

Ingestion

May cause irritation. Symptoms following overexposure may include the following: Stomach pain. Nausea, vomiting. Diarrhoea.

Skin contact

Skin irritation should not occur when used as recommended. Prolonged or repeated exposure may cause the following adverse effects: Dryness and/or cracking.

Eye contact

Causes eye irritation. Dust in the eyes will cause irritation.

Toxicological information on ingredients.

TROCLOSENE SODIUM

Acute toxicity - oral

Acute toxicity oral (LD₅₀ mg/kg) 1,436.0

Species Rat

Notes (oral LD₅₀) REACH dossier information.

ATE oral (mg/kg) 1,436.0

Acute toxicity - dermal

Acute toxicity dermal (LD₅₀ mg/kg) 5,000.1

Species Rat

Notes (dermal LD₅₀) Not classified. REACH dossier information.

ATE dermal (mg/kg) 5,000.1

Skin corrosion/irritation

Skin corrosion/irritation Corrosive to skin. Conclusive data but not sufficient for classification. REACH dossier information.

Serious eye damage/irritation

Serious eye damage/irritation Causes serious eye irritation. Corrosivity to eyes is assumed. REACH dossier information.

OMNICHLOR H2O

Respiratory sensitisation

Respiratory sensitisation No information available.

Skin sensitisation

Skin sensitisation Based on available data the classification criteria are not met. Not sensitising. REACH dossier information.

Germ cell mutagenicity

Genotoxicity - in vitro Gene mutation: Negative. REACH dossier information.

Genotoxicity - in vivo Chromosome aberration: Negative. Based on available data the classification criteria are not met. REACH dossier information.

Carcinogenicity

Carcinogenicity No evidence of carcinogenicity in animal studies. REACH dossier information.

IARC carcinogenicity Not listed.

NTP carcinogenicity Not listed.

Reproductive toxicity

Reproductive toxicity - fertility No evidence of reproductive toxicity in animal studies. REACH dossier information.

SECTION 12: Ecological information

Ecotoxicity Very toxic to aquatic life with long lasting effects. The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment. The product does not contain any substances expected to be bioaccumulating.

12.1. Toxicity

Toxicity The product contains a substance which is harmful to aquatic organisms.

Ecological information on ingredients.

TROCLOSENE SODIUM

Acute aquatic toxicity

LE(C)₅₀ 0.1 < L(E)C₅₀ ≤ 1

M factor (Acute) 1

Acute toxicity - fish REACH dossier information.
LC₅₀, 96 hours: 0.24 mg/l, Oncorhynchus mykiss (Rainbow trout)

Acute toxicity - aquatic invertebrates LC₅₀, 48 hours: 0.196 mg/l, Daphnia magna

Chronic aquatic toxicity

M factor (Chronic) 1

Chronic toxicity - fish early life stage NOEC, 28 days: 756 mg/l,

12.2. Persistence and degradability

Persistence and degradability Organic components are biodegradable.

Ecological information on ingredients.

OMNICHLOR H2O

TROCLOSENE SODIUM

Biodegradation	Degradation (%) Water - Degradation 2%: 28 days - Cyanuric acid biodegrades readily in anaerobic soils:
-----------------------	---

12.3. Bioaccumulative potential

Bioaccumulative potential Organic components are expected to Biodegrade.

Ecological information on ingredients.

TROCLOSENE SODIUM

Partition coefficient	log Pow: -0.056
------------------------------	-----------------

12.4. Mobility in soil

Mobility The product is water-soluble and may spread in water systems.

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment This product does not contain any substances classified as PBT or vPvB.

12.6. Other adverse effects

Other adverse effects There is evidence that sodium hypochlorite inhibits the aerobic treatment process at a concentration of 0.05 mg/l.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

General information When handling waste, the safety precautions applying to handling of the product should be considered.

Disposal methods Dispose of waste product or used containers in accordance with local regulations Normal use solutions are expected to be flushed to sewers.

SECTION 14: Transport information

General As supplied, this product is consigned under the Limited Quantities provisions.

14.1. UN number

UN No. (ADR/RID) 3077

UN No. (IMDG) 3077

UN No. (ICAO) 3077

UN No. (ADN) 3077

14.2. UN proper shipping name

Proper shipping name (ADR/RID) ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (CONTAINS TROCLOSENE SODIUM)

Proper shipping name (IMDG) ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (CONTAINS TROCLOSENE SODIUM)

Proper shipping name (ICAO) ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (CONTAINS TROCLOSENE SODIUM)

OMNICHLOR H2O

Proper shipping name (ADN) ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID, N.O.S. (CONTAINS TROCLOSENE SODIUM)

14.3. Transport hazard class(es)

ADR/RID class	9
ADR/RID classification code	M7
ADR/RID label	9
IMDG class	9
ICAO class/division	9
ADN class	9

Transport labels

14.4. Packing group

ADR/RID packing group	III
IMDG packing group	III
ICAO packing group	III
ADN packing group	III

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant

14.6. Special precautions for user

EmS	F-A, S-F
ADR transport category	3
Hazard Identification Number (ADR/RID)	90

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations	GB (UK) CLP and REACH Regulations. EH40/2005 Workplace exposure limits.
----------------------	--

OMNICHLOR H2O

EU legislation	<p>Regulation (EC) No 648/2004 of the European Parliament and of the Council of 31 March 2004 on detergents (as amended).</p> <p>Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).</p> <p>Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).</p> <p>Commission Regulation (EU) No 453/2010 of 20 May 2010.</p> <p>Commission Regulation (EU) No 2015/830 of 28 May 2015.</p>
